

Tio Lalo

By:Anastacia Trice

Who?

I am doing my project on my Tio (uncle) Lalo. I decided to do the project based on him because his story is very inspiring to me and just recently found out.

What did he do?

My Tio came to the U.S. with very little money. He worked as a pecan worker for 10+ years. He worked his way up little by little to get to where he is now.

Where?

He lived in Jalpa Zacatecas until 1972 when he then came to the US at 16. At the time he had very little money. After 10+ years of hard work he now lives in Warrenville, Illinois.

Why?

He wanted to have a better future for himself.

How?

He came into the United States by paying an american citizen to marry him.
